Course Studied	Name of the Institution / University	Percentage/CGPA	Year of Completion
BE Information Science & Engg.	Malnad College of Engineering ,Hassan	9.4	2026
12th	National Indp Resi PU Col, Konandur, Thirthahalli TQ , Shivamogga DT -577422	96%	2022
10th	Nava Jyothi Eng Med High School , Kolige, Konanadur post , Thirthahalli TQ , Shivamogga DT -577422	97.8%	2020

CERTIFICATION

Course Title	Certifier	Year
Sigma Batch(DSA)	Apna College	2023
Web-Development	IUCEE EWB MCE	2023
Cyber Security and Privacy	NPTEL	2024
UI/UX Design	ME-RIISE Foundation	2024

title	Year	Details
UID – Travelers' Blog Website	2024	Created a dynamic, user-friendly travel blog website to inspire and inform travelers. The website features a responsive design optimized for both mobile and desktop devices, ensuring a seamless experience. Technologies Used are HTML ,CSS, JavaScript
IOT – Smart Parking System	2024	Developed a Smart Parking System that uses real-time data to manage parking spaces efficiently. Integrated sensors and a web interface for users to check available spots and make reservations. Technologies used IOT sensors and Software Ardiuno IDE.
Educational Website for SoUL Organization	2024	Designed and developed a responsive website for SoUL Organization, dedicated to promoting educational initiatives and fostering community engagement. Key features include dynamic event updates, volunteer opportunities, team member profiles, mission, and an interactive feedback form. The site also incorporates a contact page for inquiries, donations, and volunteer sign-ups. Technologies utilized: HTML, CSS, JavaScript, and SQL for seamless database integration.
AI Evaluator (currently working)	2025	Candidates register on the hiring platform, upload their resume, and backend extracts skills to create a personalized assessment link valid for 48 hours. During assessment, mic, camera, and screen share access are mandatory, with screenshots captured every 10 seconds and emotions detected using TensorFlow. If users meet the assessment threshold, interviews are scheduled, Zoom transcripts analyzed with LLMs, and interviewer scores recorded. Finally, all emotional data, AI scores, and interviewer evaluations are compiled into a detailed final report linked to the user's profile.
A decentralized news aggregator platform (currently working)	2025	Built a decentralized news aggregator and fact-checking platform that collects news from multiple sources, verifies authenticity using AI-based fact-checking models, and records validated news on a blockchain network for transparency. Designed for public contribution, real-time validation, and prevention of misinformation spread.

Operating Systems	Unix , Windows , Ubantu
Programming Languages	C , Java , python , Full Stack(HTML , CSS , JS)
Application Packages	Django , SQL
Others (Tools)	Canva , Figma
